IN THE CLAIMS

Please replace all claims in the instant application with the listing below amending claims 1, 8-10, 25, 29, and 34-36 and canceling claim 7 as follows:

1. (Currently Amended) A lifting sling, said lifting sling comprising:

a plurality of core fibers forming a ~~said lifting~~ sling body;

a coating comprised of at least an isocyanate mixed with an amine forming polyurea;

a safety core bonded by said coating proximate to said plurality of core fibers,
ends of said safety core are concealed within said coating;

said coating further comprising:

an initial layer of said coating that seals said plurality of core fibers from exposure to contaminants;

a plurality of additional layers applied to areas of said ~~lifting~~ sling body subject to high crush and shear forces; and

a final splatter layer of said coating applied along said ~~lifting~~ sling body, said final splatter layer creating a rugged textured non-slip grip exterior surface.
